

50
YEARS AS THE
GOLD
STANDARD OF FLASH
CHROMATOGRAPHY

TELEDYNE ISCO
Everywhere you look™

You could win a free golden NextGen flash system!

Teledyne ISCO invites you to **Go for the Gold** in the Golden CombiFlash® giveaway.

We've done the math, and with the first CombiFlash and our line of RediSep® columns each introduced 25 years ago, we came up with a total of 50 nifty reasons to celebrate our leadership in the chromatography field by giving away a one-of-its-kind Golden CombiFlash.

Scan the QR code below and enter the random drawing for the Golden CombiFlash. The winner will be selected on Dec. 15, 2023, with the Golden CombiFlash NextGen 300+ with UV detector awarded in January 2024.

We will also be selecting a winner each month to receive a special gift bag of items from us. Winners will be notified each month via email.
